Care and Use of the Magnetic Letter Tiles

Instructions

- 1. When breaking apart the letter tiles, place letterset sheet flat with letters facing up. Fold IN on the score line to break apart the letters.
- 2. Store folders and letters away from direct sunlight.
- 3. Store extra letters in groups.
 - **Kindergarten** Place *s*, *a*, *t*, *r* on board. Store others in separate sections in craft box with 34 sections.
 - Level 1 and Level 2 place consonants and short vowels on board. Store others as explained in Streamlined Manual or shown in the following picture

- 4. Store folders flat, not upright.
- 5. Have students check that all tiles are on the folders at the end of your session with them.
- 6. Encourage students to use properly:
 - a. Have clean hands!
 - b. Slide tile with one finger when moving the tile (if possible).
 - c. Carefully close and open folders.
 - d. Do not bend folders backwards.
 - e. Do not play with the edges of the folders or with the letters.
- 7. Use a slightly damp cloth or cleaning wipe to clean the letters. But, please note the following cautions! SQUEEZE All EXCESS WATER/LIQUID out of the cloth or wipe first. Use products "without" bleach. Be aware that moisture getting between the coating and the magnet will result in damage (the letters have a protective coating, but the edges are open/exposed when they are snapped apart).

Note: Choking Hazard! The tiles are not suitable for children under 3 years of age. Adult supervision is always required for use of the magnetic tiles.
